Move your career in the right direction: toward satisfaction and job security!

ENGINEER / DESIGNER for Air Conditioning, Ventilation and Heating Systems

Are you an engineer in the field of ships air conditioning or ventilation or heating and looking for new challenges? We offer you the opportunity to continue your career. As a member of our HVAC department, you will be part of an engineering team and work on a variety of demanding topics, implement them in all ship types. You will have the opportunity to work in your field of expertise and in multi-disciplinary teams.

Your tasks

Technical consulting, basic design and support of air conditioning and ventilation technology

- Execution of project and planning work for several ship projects, especially ventilation and air conditioning systems in different planning phases
- System design and calculation (engine room ventilation, cargo hold ventilation, ventilation of technical rooms, air conditioning of accommodation areas)
- Checking of design, construction and manufacturing documents with regard to applicable regulations and existing specification sheets
- Preparation of documents as a basis for manufacturing and installation of ventilation and air conditioning systems
- Supporting the coordination (2D/3D) of systems and individual components within ship structures
- Coordination with other departments within Neptun Ship Design as well as with subcontractors and other departments

Your profile

- Bachelor's or Master's degree in mechanical engineering, shipbuilding or plant engineering.
- At least three year of relevant work experience in HVAC (technician air conditioning, ventilation and heating technology).
- Knowledge of the software relevant to the job (MS Office, 3D design programs, AutoCAD).
- Good communication skills: Good English and German language skills.
- Ability to work both independently and in a team.
- Interest in maritime innovation and open-mindedness towards new developments and technologies.

Our offer

- A professional working environment in an attractive workplace with highly qualified employees
- A decent wage
- Flexible working hours
- Regular team events
