WE ARE HIRING

Move your career in the right direction: toward satisfaction and job security!

PROJECT ENGINEER – Accommodation or Outfitting

Are you an experienced engineer in the field of ships outfitting or accommodation looking for new challenges? We offer you the opportunity to continue your career. As a member of our outfitting/accommodation department you will be part of an engineering team and work on a variety of demanding topics, implement them in all ship types. You will be able to work in different field of your expertise and in multi-disciplinary teams.

Your tasks

- Realization of project- and design work for several ship projects and different ship types.
- Ensure the technical and commercial parameters according to client´s requirements.
- Development of approval drawings and coordination with owners, classification societies and shipyards.
- Elaborating of specifications, check and evaluate of quotations.
- Act as team leader for a dedicated group of engineers within the department for one ship project.

Accommodation:

- Preparation and coordination of netspace-, furnishing-, flooring-, ceiling- and insulation plans.
- GA preparation and coordination
- Coordination of safety plans

Outfitting:

- Preparation and coordination of documents for your special field(s).
- Due to the huge variety within ships outfitting we are excited to get to know yours.
- Ideally your expertise is 'cargo handling' or 'special' equipment but we are interested in all specialists.

Your profile

- Bachelor's or Master's degree in the field of mechanical engineering, interior design or similar
- At least five year of relevant work experience in ships accommodation or outfitting
- Knowledge of the activity-relevant software (MS Office, AutoCAD, Optional: CADMATIC, AVEVA)
- Save dealing with international design standards, rules, regulations (e.g. IACS, DNV, LR), and statutory documents, especially SOLAS, and for accommodation MLC 2006 and FSS Code
- Good communication skills: Very good English and German skills
- Ability to work both independently and with a team
- An interest in maritime innovation and an open mindset to new development and technologies

Our offer

- A professional working environment in an attractive workplace with highly qualified employees
- A decent wage
- Flexible working hours
- Regular team events
